TAURUMI MIND AND BODY

A unique harmonizing experience, inspired by the ancient wisdom of Polynesian massage practitioners and their deep understanding of touch. These skills, which restore balance and harmony in mind and body, have been passed on from generation to generation. This distinctive island experience begins with a body scrub made with organic essential oils. Once the body and mind are prepared, the Polynesian-inspired massage begins. The massage is a unity of ancient and modern techniques embracing the concept of taurumi, meaning “health in the hands.”
